

# Juki MO-6814S

## 2 NEEDLE, 4 THREAD OVERLOCK/SAFETY STITCH MACHINE

The Juki MO-6814S is a 2 needle, 4 thread overlock/safety stitch machine equipped with a direct drive motor. This ensures it operates quickly and quietly whilst producing Juki's famously high quality seams. It has a differential feed micro-adjustment mechanism which allows it to adjust to the material being used, responding to various kinds of sewing materials and processes.

This model is ideal for sewing light to medium weight fabrics. It has the added benefit of being part of Juki's Eco Products range, and is more energy efficient than traditional machines.

HIGH SPEED SEWING

### APPLICATIONS

An overlock stitch is secure, soft on the skin, and stretches with the fabric being used. This machine is ideal for apparel production (for example baby clothes or athletic wear) but if you have any questions about your individual requirements then please speak to our friendly team and we'll be happy to help.
